Wind Eagle and Rainbow Hawk

After teaching separately for many years, WindEagle and RainbowHawk joined together to become twin “Keepers of the Origin Teachings of the Delicate Lodge,” a body of self-knowledge and Earth Wisdom Teachings that derive from ancient indigenous American cultures.

Teaching together since 1987, they created WindTree Teaching Center located in the Santa Cruz Mountains of northern California. In 1995 they founded the Ehama Institute, a not-for-profit teaching institute, with a vision to share the Earth Wisdom Teachings with circles of people around the world in order to once again create a culture of harmony and respect for life.

They work with those individuals and organizations that choose to claim their part in creating the change toward wholeness in human affairs. Some of their worldwide business clients include Volkswagen, BMW, Lucent Technologies, the US Air Force, Mattel Media, the World Business Academy, and Honeywell, Inc.

“12,000 years ago the American continent was populated by native people crossing the Bering Straits. The wisdom they evolved guided their view of the world, their sense of interconnectedness, and their ways of making decisions. Today this wisdom, an oral tradition, is almost extinct. In Heart Seeds, WindEagle and RainbowHawk breathe immortality into this ancient wisdom. With an engaging, story-telling style they capture the ancient wisdom and provide the ‘developed world’ a unique opportunity to benefit from these time-tested perspectives on life and nature.”

Eric E. Vogt, Co-founder and President, InterClass
